

Dr. Angeliki Menegaki received her Ph.D. from the University of Stirling in Scotland, her Master's degree from the University of Leeds in England and holds two undergraduate degrees: one in Economics from the University of Crete and another in Language & Literature of Black Sea countries from Democritus University of Thrace, with a specialization in the Turkish language.

She has taught at numerous universities in Greece and abroad and has held managerial positions in the public and private sectors. Until June 2024, she was a Full Professor at the Agricultural University of Athens (Department of Regional and Economic Development). Since then, she has been appointed as an Associate Professor at the Hellenic Mediterranean University, specializing in Applied Economics in the Environment and Sustainable Development.

She has authored over 90 articles in peer-reviewed international journals with an impact factor and has written or edited 10 books in both Greek and English. Her scholarly work has received over 2,800 citations with an H-index of 27 (according to the Scopus database) and approximately 4,700 citations according to Google Scholar with an H-index of 33. Her research interests focus on Energy, Environment, Tourism, and Sustainable Development.

At the Agricultural University of Athens, she served as Vice Chair of the Department of Regional and Economic Development and Director of its Doctoral Program.

Additionally, she is the founder and Editor in Chief of the International scientific journal *International Journal of the Energy-Growth Nexus* (Inderscience Publications) and the editor of the *Encyclopedia of Energy Economics* (Edward Elgar). She is also an Associate Editor for two Elsevier journals, *Gondwana Research* and *Heliyon*, as well as for the journal *Economies* (MDPI).

In 2020, 2021, and 2022, she was honored in the Ioannidis list of Stanford University as being among the top 2% of the most influential scientists globally in the field of energy. Some of the international journals that have published her work include *Energy Economics*, *Ecological Economics*, *Journal of Economic Surveys*, *Empirical Economics*, *Journal of Choice Modeling*, *Applied Energy*, *Energy*, *Sustainable Production and Consumption*, *Environment, Development and Sustainability*, *Tourism Economics*, *Current Issues in Tourism*, *Environmental Science and Pollution Research*, *Energy for Sustainable Development*, *Ecological Indicators*, *Energy Policy*, *Water Resources Research*, *Energy*, and *Journal of Economic Psychology*.
